Concussion Management: AIS Updated March 2024

The Australian Institute of Sport (AIS) made recommendations for changes in concussion management in sports. In March the AFL introduced a new concussion management policy for all levels of football reflecting these changes. The SANFL and community sport accepted these changes and these changes have been implemented at all levels.

Any player suspected of concussion will be removed from play and referred off for medical assessment.

All players that have sustain concussion or are suspected of having concussion will enter a minimum 21 day return to sport guideline and medical clearance required before return to contact training, after day 14.

You can find links to all the resources of information on the concussion page of our website.

<http://www.reynellaafc.com.au/concussion>.

There has been a lot of development in concussion knowledge and this will continue with the amount of research being undertaken. Concussion management protocols will continue to change to protect player health.

If you get the chance to hear Paul Seedman's story about how he is still struggling from his second career concussion it is worth the listen.

Reynella Football Club is a community-based club. We rely on amazing volunteers who keep our club successful both on and off the field.

Thank You to our committees, coordinators and volunteers who do a fabulous job getting our club running. Many of these people are working full-time jobs as well as doing work for our great club during work breaks, after or before work hours and many hours done during the night as well as being at the club multiple days in a week.

Please do not take our club for granted. We are successful because of the people in the club.
